Crazy Dinámicas (Icebreakers) at the K-Fe

They were crazy enough to ask Julian to lead the icebreakers for the university group... His events were 1- five guys sit in a row with pantyhose over their heads while another person feeds them a banana through the pantyhose... first one to finish the banana wins. 2 - A relay race where each team member has to run to a finish line and back, the only trick is they must hold a spoon in their mouth with an egg in it. The students loved it!

North Point Community Church (NPCC) Visit

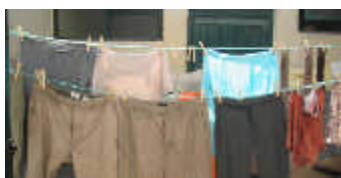

Two staff members from NPCC (our church) World Missions visit our team to help us work through the strategic planning process for the

ministry. It was a great opportunity to define a vision that everyone could take hold of. We are excited about the vision of crating a reproducible model of ministry that influences the Mexican church to reach young people for Christ. Our strategy combines relational evangelism, intentional discipleship and training for multiplication.

Hangin with Ray

Over the past few weeks Julian has had the opportunity to begin investing into an American university student named Ray. Ray is passionate about growing in his relationship with Christ and becoming a man of God. This has been a great opportunity to encourage and challenge someone who is excited about the Lord.

Casa Krevere

We are getting very close to being "settled" in our new home. We are now cooking, cleaning and even doing laundry ... although it is a little different here in Mexico.

Whitney's New Role

As our team has grown, Whitney has been asked to take the role of the team administrator. She is excited about the opportunity to help our team's efforts to be well organized and efficient.

Prayer Requests:

- Discipline and intimacy in our relationship with the Lord
- Our marriage: to remain strong in the midst of frustrating circumstances
- Language study and practice
- Deep relationships with University students
